During our musical theatre programme of Footloose Youth Edition, students work with our leading industry team. A choreographer, musical director, and professional drama teacher and director to create acting, voice, movement, singing and dance skills in a safe space. Through ensemble, individual classes and company rehearsals, participants develop the skills necessary for performing a musical to the highest standard in just seven days! In addition to day rehearsals, evening entertainment and guest workshops are all included for an action packed day up to hot chocolate at 10pm!

This intensive immersion in musical theatre helps build self esteem, develop new skills and enhance performance. On final day of the summer course, students perform a full show with professional technicians, lighting and sound to a live audience. This experience in seven days can be life changing and transformative for young performers.
